Tools: Jira, Google Workspace, Git, GitHub, Notion

Technical: React, Next.js, JavaScript, TypeScript, Python (basic)

Soft Skills: Leadership, Team Coordination, Communication, Adaptability

Experience & Leadership

Project Manager / Scrum — UrbanIQ

Leading development of the UrbanIQ complaint-management platform. Responsible for sprint planning, backlog refinement, and task allocation. Coordinate communication, remove blockers, and ensure timely delivery. Manage documentation, requirement gathering, and workflow structure. Working with developers to maintain Definition of Done and improve team cadence.

Event Project Manager — CodeFest (2023)

Organized a university-wide event with 200+ participants. Managed schedules, logistics, volunteers, and communication across teams. Ensured seamless event execution through structured planning and real-time issue handling.

Project Coordinator — E-commerce Frontend Project

Scoped features, defined UI/UX flows, planned milestones, and coordinated development efforts. Used GitHub Projects for workflow management and progress tracking.

Certifications

- Google Project Management Certificate — Google (via Coursera), 2025
